

March 6, 2020

Dr. Benjamin Doga
Chief Medical Officer
LHC Group

As one of the nation's leading in-home healthcare providers, LHC Group's mission is to safeguard the health of our patients, our workforce, and the communities we serve across the country.

As the CDC has previously stated, the home environment is the best setting for the isolation and recovery of patients exposed to or currently experiencing symptoms of COVID-19. For more than two decades, LHC Group's home healthcare providers have dealt with infectious diseases as part of their everyday duties. Home health clinicians are one of our nation's best resources, and are uniquely positioned to help patients, families, communities, the healthcare industry, and our nation effectively deal with COVID-19.

Our LHC Group family will leverage our expertise and resources to help our nation and the healthcare industry successfully weather this storm.

If you have further questions, please don't hesitate to contact your local LHC Group agency. Thank you all for your support.

Sincerely,
